

Chassieu, June 22 2011

Dear Customer,

With reference to the Regulation (EC) N° 1907/2006, issued by the European Union for the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), please be aware that:

- ABB is classed as a downstream user. We do not therefore required to pre-register or register our products.
- ABB products do not intentionally release substances meeting the criteria as described in Annex XIII of the EU regulation 1907/2006.
- ABB continuously assesses its products for content of Substances of Very High Concern (SVHC), as identified by the European Chemicals Agency (ECHA) in the "Candidate List" included in Annex XIV of the EU regulation 1907/2006 updated on June 20, 2011.
- ABB continuously undertakes communications throughout the supply chain in order to collect information about suppliers' compliance with the REACH Regulation.

In the event we discover the presence of SVHC substances exceeding 0,1% w/w, we will inform you according to the requirements of the REACH directive.

For further information, please contact the person in charge of REACH in our company:

Marie-Georges Lesne Tel.: 04.72.22.18.74, e-mail: [marie-georges.lesne@fr.abb.com](mailto:marie-georges.lesne@fr.abb.com)

Yours sincerely

Marie-Georges LESNE

ABB France
